Product, Services and Clients

Design and Material Sourcing

Reliable partners that bring advanced technology and products to the forefront can enable excellent quality at great value

Installation

Proven design and technology know-how enables us to develop best ID solution for tracking, monitoring and control operations

Maintenance

The hallmark of our excellence is exceptional client service with same quality post-installation and go-live

Training

We help client with training and capabilities development to ensure smooth transition of control operation

How we excel and deliver exceptional client service:

Establish Early Relationships

Create Solution & Designs to Meet Requirements

Collaborate on Cost Targets

Engage with the Right Team

Evaluate Competitive Alternatives

Sector we serve

Airports

Railways

Thermal & Power Plants

Ports

Manufacturing

Infrastructure

Telecom

Defense

Critical & Vital installation

Government Sector

Refineries

Petroleum Storage Terminals

Slingshot Security Solutions Pvt. Ltd is dedicated to excellence in the area of security consulting, security system design and engineering, installation and commissioning of advanced security solutions. Our products and services cater to a broad range of maximum security, highly sensitive government and private-sector clients.

Fence

- Anti Climb Mesh (358)
- Razor Mesh Fence
- Weld Mesh
- High Security Fence
- Chain Link Fence
- Decorative Fence
- Electric Fence
- Barbed wire
- Razor wire
- Floating Barrier
- Rapid Deployment System

Sensors

- Microwave/IR – Dual sensors
- Seismic Sensors
- Taut Wire
- Buried RF Cable
- SVS 1000 Multi Sensing Transducer
- Fiber Optic Sensors

Bollards

- Hydraulic
- Fixed/Shallow mount
- Vehicle Arrestor

Other Products

- Security Gates
- Radar
- Under Vehicle Inspection System
- Under Water Intrusion Detection System

Slingshot Security Solutions Pvt. Ltd is dedicated to excellence in the area of security consulting, security system design and engineering, installation and commissioning of advanced security solutions. Our products and services cater to a broad range of maximum security, highly sensitive government and private-sector clients.

Fence

- Panasonic India Factory at Jhajjar (Haryana)
- AISIN Plant at Rohtak (Haryana)
- AISIN Automotive Bangalore (Karnataka)
- 4m High Fence at Mumbai Airport (Maharashtra)
- 10 km Fence at Alaknanda Hydro Power Project, Srinagar, (Uttarakhand)
- Yamaha India Pvt Ltd plant Chennai (Tamilnadu)

Fence

- Yamaha India Vendor Park Sriperumbadur, Chennai, (Tamilnadu)
- NAPC UNO Minda Plant at Chennai, (Tamil Nadu)
- Perto India, Jaipur, (Rajasthan)
- Pepsico India Ltd, Sricity, (Andhra Pradesh)
- Relaxo Footwears India Ltd, Bahadurgarh, (Haryana)
- Nidec Plant Neemrana, (Rajasthan)
- Honda Plant, Ahmdabad (Gujrat)

PIDS

- PIDS Project Mumbai International Airport (2014-16)
- PIDS Project Srinagar 15 Km
- PIDS Project Nagrota 25 Km
- PIDS Project Udhampur 66 Km
- PIDS Project Nashik 6.5 Km

AMC

- AMC of PIDS Mumbai Airport
- AMC of PIDS Project Army in Pipeline

What our client say about Slingshot?

“
Slingshot Security Solutions Pvt. Ltd always performs as a trusted partner and delivers customized, integrated security installations in a timely and cost-effective manner.”

Slingshot Security Solutions Pvt. Ltd is committed to providing exceptional perimeter security solutions based on superior industry knowledge and a steadfast determination to understand our client’s needs and challenges.

Opportunity landscape - Our Focus Area

Global Border Security Market

\$66.68 Billion

Global Border Security Market size is supposed to reach \$66.68 Billion by 2028 at CAGR of 10.49%.

Source: [Mordor Intelligence](#)

The global perimeter intrusion detection systems market is expanding due to increased government investments, cost-cutting in manpower, and rising security concerns against terrorist threats.

Perimeter security is crucial in various industries like transportation, commercial buildings, government, and critical infrastructures, driving demand for fence vibration sensors, thermal imaging cameras, and microwave intrusion detection sensors.

Commercial applicability of PIDS systems are also expected to increase manifold with technologies expected to become more accessible for commercial and residential applications in terms of cost, than they are now.

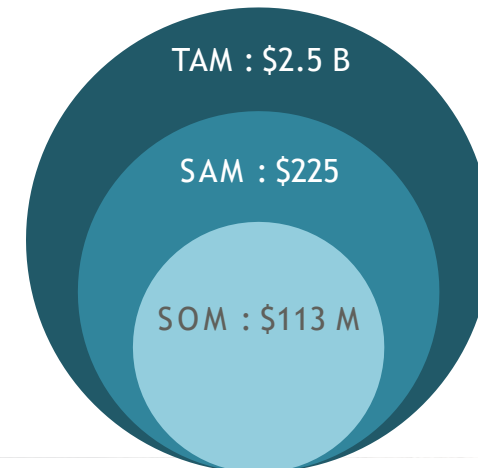

Key Market Drivers:

Rising terrorism concerns, illegal immigration awareness, video surveillance tech, cost-cutting, smart city investment, and stricter government standards fuel demand for enhanced perimeter security solutions.

Opportunity in excess of 20000 Crores

Sector	Physical Fence (In KM)	PIDS	Cameras	Drones	Other Equipment
Armed Forces	5,500	6,500	20,000	3,000	900
Border Security	7,500	7,500	40,000	3,500	3,500
Airports	225	900	7,000	280	280
Sea Ports	1,000	1,000	7,500	300	300
Critical Infrastructure	2,500	2,500	12,500	500	500
Total	16,725	18,400	87,000	7,580	5,480

Business Opportunities Worth USD 2.5 Billion in the above Sectors.

Slingshot Security Solutions Pvt. Ltd is dedicated to excellence in the area of security consulting, security system design and engineering, installation and commissioning of advanced security solutions. Our products and services cater to a broad range of maximum security, highly sensitive government and private-sector clients.
